**Subject:** a few small edits on the final fact sheet  
Fact sheet for final documentation package 092416 edits.docx

Soledad,

Here is the English version of the edits on the fact sheet. Just a few tense changes, adding of a date when we stopped air monitoring, and the Metals attachment is #5, not 6.

Thanks soo much. If you could make these last final edits, then I will send out for signature, and final compilation.

Our admin assistant has already printed the labels and myself and Alejandro will work with her this coming week to get all these out. Super exciting!

Thank you again,

Michelle
